21st October 2021

"Dear, You" a mini visual guide, proudly authored by our dearest SLS Student from Batch 2018, Ms. Nupur Laddha.

PDEU **PANDIT DEENDAYAL ENERGY UNIVERSITY**

SLS **SCHOOL OF LIBERAL STUDIES**

'Dear, you' talks about 15 fresh concepts that helped me get through the phase of 2020 and 2021. I've summarized my major learnings in the most concise and compact version possible, with each learning / concept supported by a visual that'll help one move further ahead.

I address it as a 'Mini Visual Guide' and here's how one can make the most out of it - I've left 2 questions to ponder over towards the end of each concept, which will eventually mark a new beginning for the reader.

'Dear, you' has been up close and personal and I'm sure there's a lot for anyone to take back from here as well. For more insights, one can view My Book Brief, that sums up my journey and my book beautifully.

Love,
Nupur Laddha - SLS - 18 Batch

4th - 6th October 2021

1st International Conference on Additive Manufacturing and Advanced Materials (AM2)

Welcome to
1st International Conference on Additive Manufacturing and Advanced Materials
4th-6th October 2021
